

The JDC Marketplace on Forced Displacement Research

Virtual session, September 3, 2025

JDC Vision, Setup and Ways of Working

The JDC Journey: From Data Strategy to Impact

2019

The JDC Secretariat is inaugurated in Copenhagen, Denmark

85

Activities supported, solicited through Calls for Expressions of Interest with World Bank and UNHCR

43

High-quality datasets produced including representative samples of forcibly displaced persons. Of these 16 are per National surveys and censuses

4.7BN

US\$ 4.7BN in national developments programs informed by JDC-supported data and evidence

2

Two Strategies developed, 2021-2023 and 2024-2027, in close consultation with partners

44M

US\$ 44 million in contributions as of 2024

121

Analytical products, reports, and policy briefs produced on affected populations at the national and regional level

9

Countries where JDC-supported data and evidence have informed national policies and strategies so far

Strategy priorities 2024-2027

I

Systematic inclusion in national statistics

II

Targeted production of high-quality data and timely analysis to inform policy and programs

III

Data innovation to increase the quality, timeliness, and accessibility of data

IV

Operationalize data and evidence to strengthen solutions to forced displacement

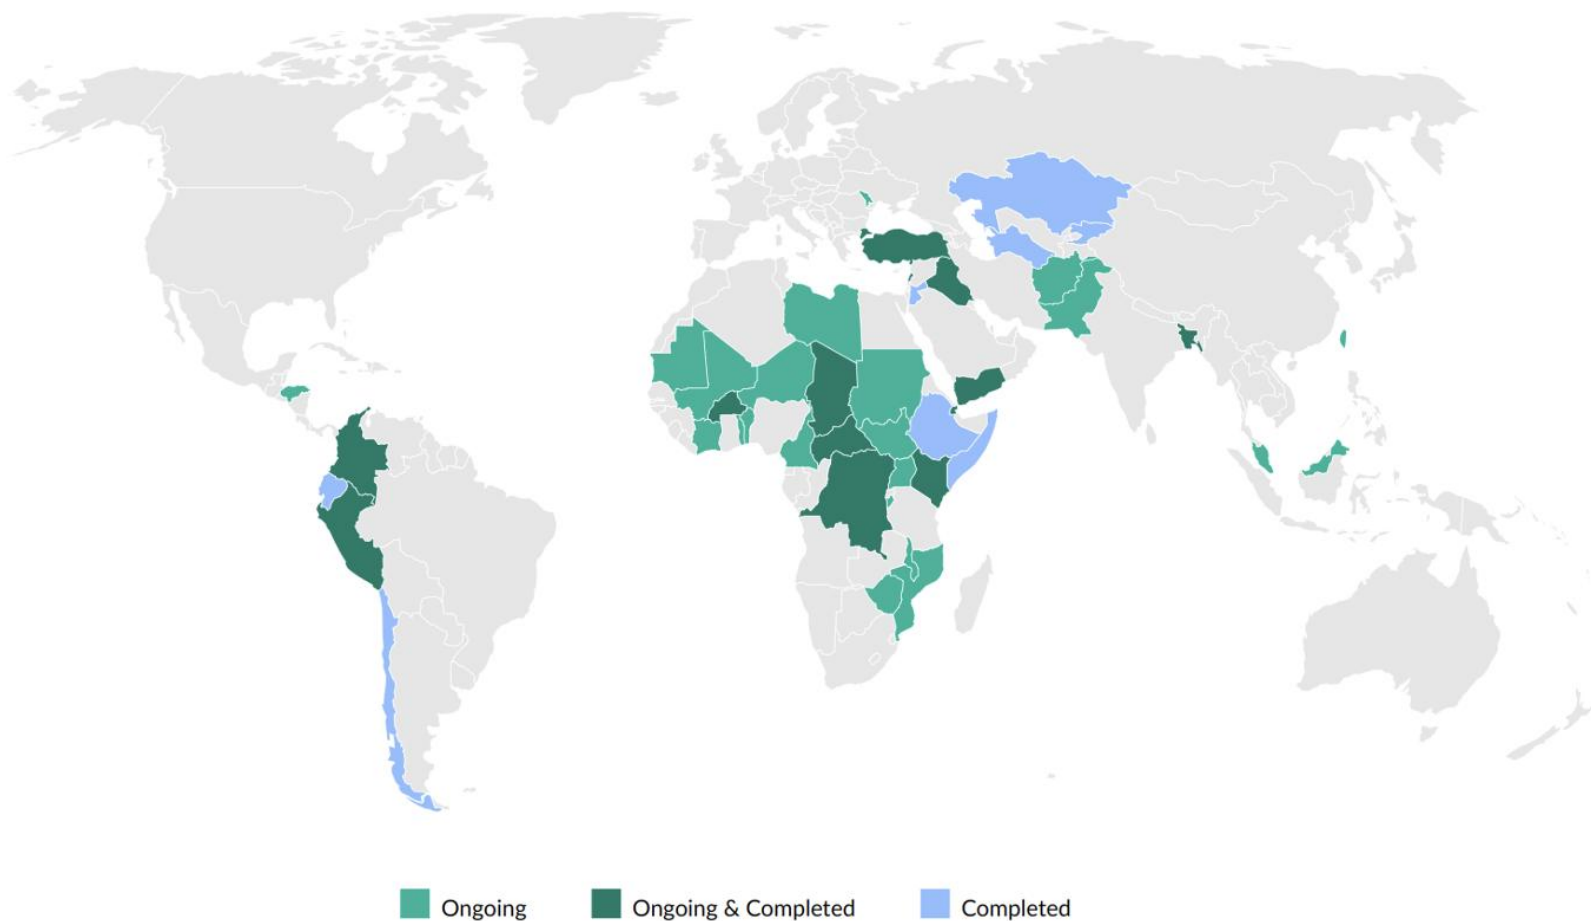

World Bank-UNHCR Joint Data Center on Forced Displacement
Strategy 2024-2027 | Summary

JDC Work Program 2025

42 ongoing activities

- 8 global activities and 34 country and regional level activities
- Total budget of active portfolio: USD 15,3M

JDC Strategic Priorities

SP I
24 activities

SP II
10 activities

SP III
3 activities

SP IV
5 activities

Strategic Priority IV

Operationalize data and evidence to strengthen solutions to forced displacement

- Deployment of strategic engagements and channels
- Launch of sustainable platforms (e.g., the Marketplace)
- Intended users:
 - host governments, donors, and partners
 - humanitarian organizations
 - development organizations

JDC's Knowledge Agenda: Key Components

Marketplace for Researchers and Practitioners

KNOWLEDGE AGENDA
COMPONENT #2

Goal

Facilitate the dialogue between researchers and practitioners and stimulate research opportunities for policy-making.

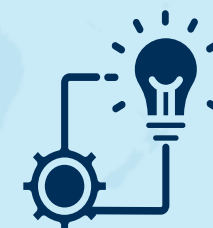

Solution

A dedicated webpage/portal to offer an interactive space for sharing proposals, ideas for collaborations and possibly more

Final Objective

The online space will be devoted to matching research opportunities (“the demand”) with research interests (“the supply”)

Marketplace Vision: In-Person Event

KNOWLEDGE AGENDA
COMPONENT #2

Goal

Facilitate the dialogue between researchers and practitioners and stimulate research opportunities for policy-making (same as the platform)

Solution

A series of conversations to assess the needs of policymakers and link them to research proposals

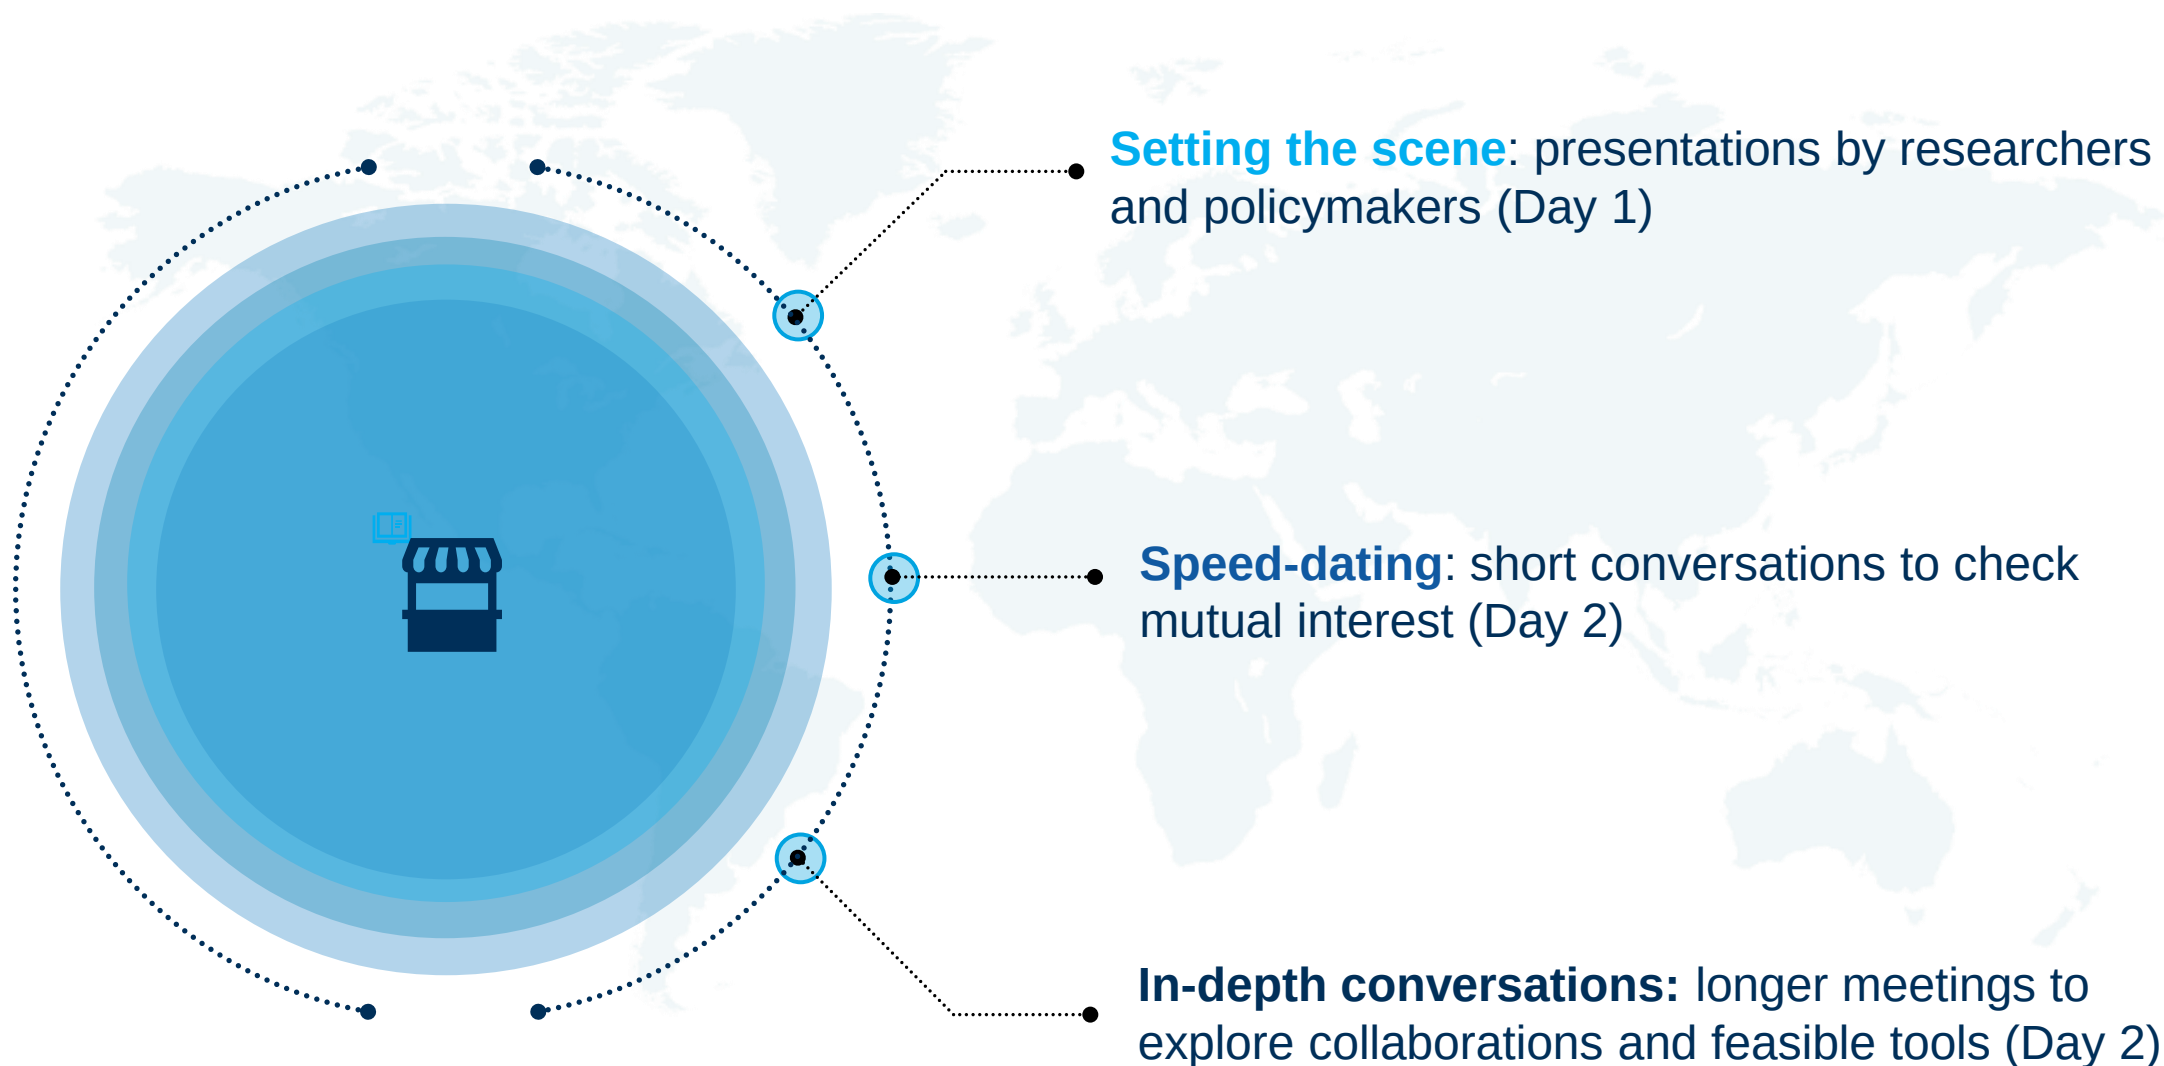

Final Objective

Establish connections between stakeholders, leading to concrete opportunities for operationally-oriented research collaborations

Marketplace Structure: In-Person Event

KNOWLEDGE AGENDA
COMPONENT #2

How to Prepare

This is not a conference – active participation is key

Focus on relevant themes for your country:

- What questions emerge?
- What data is needed?
- What type of research is required?

But capitalize also on lessons and experiences from other countries

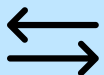

Engage with researchers:

- Can their studies apply to your contexts?
- Do they have the right tools?

If funds are available, signal it clearly

Aim to leave Sanremo with clear, actionable proposals for your Government

Confirmed Speakers – Day 1

KNOWLEDGE AGENDA
COMPONENT #2

S.G. Ahmat Abderahim Abbo, Secretary-General for Economy, Planning, and International Cooperation in the Ministry of Finance, Budget, Economy, Planning, and International Cooperation, Chad

Quy-Toan Do, Co-Director, 2023 World Development Report; Lead Economist, Development Research Group, World Bank

Elizabeth Eyster, Head of Sustainable Response Service, UNHCR

Prof. Guy Grossman, David M. Knott Professor of Global Politics and International Relations, University of Pennsylvania.

Nessa Kenny, Associate Program Director for the Peace & Recovery Program, Innovation for Poverty Action

Prof. Jackie Wahba, Professor of Economics, University of Southampton

Thank you!
